Overview

I am a point guard that can play both on ball and off the ball. I have great athletic ability that allows me to play bigger from the guard position and finish with good efficiency at or around the rim. I am athletic enough to pressure the opposing teams guard full court and break down defenses to create for myself and for my teammates. The things that I can add to any team is my willingness to work hard, be coachable, and a great leader that always wants the ball in my hand to make the big winning plays.
